2027	Support Services - Facilities	3/12/13 14:05	148	Tonya	Cousins	Therapeutic Recreation Center	I need to have the plumber come in and repair the leaking sink in the multipurpose room side A of the Senior Building and install regular side toilet seats (raise the toilet seats in the all the restrooms) and install handicap rails for the seniors so they'll have something to hold on to for support while sitting or standing up. (The old daycare facility had children toilet seats which are too low to the ground, they need adult/handicap toilets installed into 3 bathroom in the Therapeutic Recreation Senior Center.

2028	Support Services - Facilities	3/12/13 14:26	148	Tonya	Cousins	Therapeutic Recreation Center	The outside lights on the side and front of the Therapeutic Senior Recreation Center (Old Daycare Building) is out and it's dark in the evening time, when the seniors leave the facility; the lights to the parking lot and building aren't working and needs to be well lit in order for the seniors to see at night. Please have maintenance come check out all the lights some of the lights aren't functional and need to be replaced and some of the pole lights (two pole lights in the back parking lot near the back entrance adjacent to the garbage cans are off and the front pole lights in the front of the senior building is out even the one that belongs to Pepco out front of the building is out which needs to be repaired; a neighbor reported that we had a car set on fire on the premises last week while we had that snow day and the government was shut down; luckily the fire department put out the fire and removed the car from the premises; the seniors cleaned up the debris from the parking lot; this is a serious safety issue that's why it's important for us to have this building well lit especially at night.

2031	Support Services - Facilities	3/12/13 14:42	148	Tonya	Cousins	Therapeutic Recreation Center	I need to have the locks replaced in throughout the Therapeutic Senior Recreation Building; the bathroom door locks will jam and lock us out of the inside two bathrooms in the multipurpose room side A and side B; the staff bathroom door (bathroom in the outside hall area) don't have a lock on it at all; and seniors walk in on each other while others are using the bathroom so I need a lock installed on that one. The closet doors in the outside hallway locks us out; especially the maintenance closet and we don't have a way to gain access to retrieve our mops, supplies, etc.; we also need the two inner entrance doors located inside; the locks needs to be repaired because we cannot lock the doors from the inside just in case someone runs into the building and we need to secure ourselves. The inside roof panel which is located in the maintenance closet needs a pad lock because the building is exposed and any one can gain access through our roof so I need a lock pad put on that for security purposes.
